

# Nissan Business Advantage Centralized Billing Information

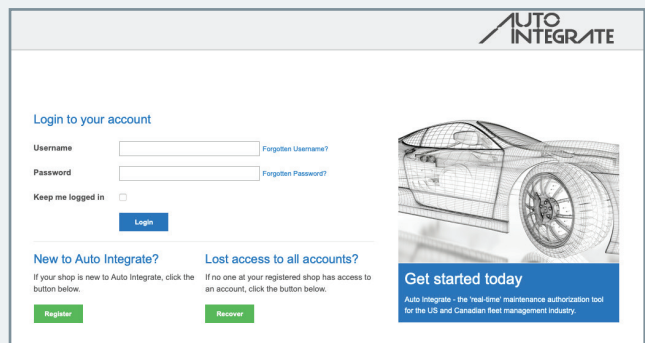

**Our dealership is now enrolled in Nissan Business Advantage - Centralized Billing.** Nissan Business Advantage is a consolidated billing and claims authorization program that offers incentives to Fleet Management Companies (FMCs) for using enrolled Nissan dealerships (preferred service locations) for maintenance and repairs.

The Nissan Business Advantage program simplifies the process for Dealers, making it easier to become a preferred vendor for the FMCs and it streamlines Dealer repair order payments. This program will help Nissan Dealers grow their service business with the FMC's Nissan vehicles.

### What to do when you receive an FMC driver:

- Log in to the Nissan Business Advantage portal through Auto Integrate to submit the RO for authorization: [online.autointegrate.com](https://online.autointegrate.com).
- Once the RO is approved, perform the repair, close the RO by clicking **Work Complete** to trigger payment, and return the vehicle to the driver.

**Important:** Nissan—not the FMC—will issue the NBA payment directly to your dealership.

### Need support?

OEC Customer Support is your go to for all help related issues. They will assist with login issues, RO processes concerns, payment concerns, etc.

OEC Customer Support [888.776.5792](tel:888.776.5792)

Use this area to list your current FMCs enrolled in Nissan Business Advantage with login information.
