

Mechanical Parts Program
powered by RepairLinkSM

The Mitsubishi Motors Mechanical Parts Program powered by RepairLink!

RepairLink, an online mechanical parts order management platform, features one of the industry's largest networks of shops & buyers, helping boost parts sales, drive efficiencies, and strengthen customer relationships. Plus, RepairLink is **free for shops**, offering buyers access to inventory availability, pricing, and detailed parts illustrations, putting your parts inventory **right where buyers are shopping: online**.

The **New Mitsubishi Motors Mechanical Parts Program powered by RepairLink** is designed to help your dealership offer thousands of discounted parts to independent repair shops.

With this program, Dealers can add up to the MMNA reimbursement amount on program parts on top of their existing relationship pricing with wholesale customers. **MMNA will reimburse dealers up to 10% off list on program parts on the following month's parts statement.**

It gets better: Mitsubishi Motors North America (MMNA) has officially included OEC RepairLink standard monthly service fees as parts & service co-op eligible at the standard 50% reimbursement.*

*Co-op funds must be available in the period they are claimed for use. Refer to the MMNA official Parts & Service Co-Op Rules on the MDL for details.

For more information about the Mitsubishi Motors Mechanical Parts Program visit go.oeconnection.com/mmna

Scan for a quick video on how an order flows from shop to dealer and back again – in minutes!

To get started, scan the QR code, email us at Sales@oeconnection.com, or call 888-776-5792, option 2.

RepairLink Program Benefits:

Connect to a network of 101K+ active independent repair facilities

Leverage detailed parts diagrams & illustrations to promote accuracy

Offer 24/7 online ordering for shops, allowing you to run an around-the-clock parts department to boost sales
