

GET NISSAN CERTIFIED

NISSAN
CERTIFIED COLLISION
REPAIR NETWORK

The Value of Certification:

- Certification increases your overall business value
- Recognizes you as the top 10% of the collision repair industry
- Certification credentials and signage build exponential credibility; improving reputation, increasing consumer confidence and CSI scores
- Enhances your marketing and strengthens B-2-B relationships through Certification and Consumer Awareness Campaigns
- Nissan Marketing tools will proactively direct customers to Nissan Certified shops
- Enables you to stay ahead of changing technology to properly and safely repair the next generation of vehicles
- Attract and retain the best employees (HR equity)
- Annual compliance ensures your shop is technically capable and able to meet OEM specified requirements

Make sure your shop is included in the shop locator tool for Nissan vehicle owners & part of Nissan's aggressive consumer referral program (CRP).

Get Nissan Certified

The Nissan Certified Collision Repair Network is looking for quality collision repair providers focused on maintaining a superior repair experience, using the proper tools, equipment, training, and facilities to ensure that Nissan vehicles are repaired back to manufacturer specifications. The mission is to provide innovative services, delivering measurable value to all stakeholders for the purpose of driving owner loyalty and retention after a collision. You're in a league of your own when you receive your Nissan Certification, and it can open up additional opportunities for your business.

Collectively, all of the OEM Certification-Recognition programs round out your business, generating a massive customer referral base for vehicle owners. Now you have the potential to break the chains of insurance DRP agreements overloaded with concessions and become part of the largest OEM backed, exclusive collision repair network.

This new frontier for collision repair allows you to run your business focused on giving the consumer a superior repair experience that ensures the safety and value of their vehicle.

If you desire to be a leader and believe your body shop can meet the requirements, act now and get Nissan Certified today.

PROGRAM OBJECTIVE:

The program's objective is to identify and promote body shops that have the right tools, equipment, training, and facilities necessary to repair vehicles back to manufacturer specifications. This program is critical to help ensure the vehicle fit, finish, durability, value and safety.

Nissan Has Teamed with Collision Performance Network

Certified Once, Recognized by Many

Nissan now leverages the Collision Performance Network's Certification program to enable retailers and qualified independent and dealership collision repair providers to become Certified by Nissan and Recognized by other leading manufacturers. The vision is to create partnerships supporting the complete vehicle repair lifecycle, alleviating stress, inspiring trust and instilling consumer confidence after a collision.

The joint-effort approach Nissan and Collision Performance Network share eliminates redundant costs and duplication between programs.

Certification-Recognition by multiple entities is now cost effective and highly rewarding. You are able to receive multiple Certification-Recognitions under one umbrella for a special consolidated annual fee and inspection-audit process.

Through this exclusive combined program, collision repair providers will receive exponential credibility from several of the largest OEMs in the world, adding to brand equity and reputation.

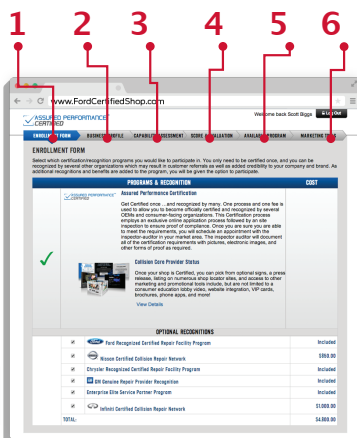

There is nothing else like it - not even close!

- Certification-Recognition is based on the OEM specified requirements necessary to properly repair current model vehicles.
- The program is open to all shops that can make the grade (independent repair providers may require dealer sponsorship for select manufacturers).

How Does a Shop Become Certified by Nissan?

1. Turnkey Approach

Below is a step-by-step process that Nissan body shops go through to become Certified.

1. Enrollment

Review the terms and conditions of participation and select the enrollment option.

2. Business Information

Enter required business details to access available marketing tools.

3. Business Capability Assessment

Evaluate shop's capabilities against the list of certification requirements and standards in order to receive your business improvement plan.

4. Score & Evaluation

Review and examine any potential deficiencies in becoming Certified.

5. On-Site Inspection-Audit

The next step is to schedule an on-site inspection-audit. An inspector will tour your body shop and ensure proof of compliance with photos and documentation.

6. Marketing & Promotion

Access available marketing tools to maximize your ROI and overall business value.

Benefits of Nissan Certification

Shop Locators

Listing on multiple online OEM shop locators, linked directly from the OEMs websites and connecting consumers to your micro-website. To preview, please go to: autobodylocator.com/nissan.

Smartphone Apps

Collision Performance Network and OEM branded apps provide a solution to assist consumers at time of accident and throughout the repair process.

Nissan Direct Marketing

Nissan Collision will be marketing and educating Nissan owners on a bi-monthly basis promoting the Nissan Certified Network of Collision Repairers.

Complimentary Towing

This service is available when a customer calls 1-800-NISSAN-1.

dataManager

Safeguard your data and monitor your business performance with KPI reporting and benchmarking.

Technical Information Site

Reduces cycle time and assists in more efficient repairs.

Signage & OEM Branding

Utilize Nissan approved signs, badges and logos in all marketing material and messaging to market your ability to repair Nissan advanced vehicle systems.

Press Releases

Your recent Certified status distributed to local media outlets announcing your business as the most advanced-capable body shop in your community.

Business Improvement Program (BIP)

An exclusive program designed to assist body shops in earning a "5-Star Status" by achieving top performance metrics in the business disciplines that matter most.

RepairDOC Procedure Usage & Compliance

Limit liability exposure and assist your shop's technicians in properly documenting OEM Repair Procedures, ensuring compliancy for each repair.

Repair Procedures

Subscription to the Repair Procedures.

Nissan Direct Marketing Generates Results

The Nissan Certified Collision Program markets and educates over 2 Million Nissan customers on the importance of finding a Nissan Certified Collision Repair Center in the unfortunate event of experiencing an accident.

- Bi-monthly email blasts are sent to over 2.3 million Nissan customers.
- Customers educated on the importance of finding a Certified Collision Repair.
- No need to purchase an owner database for your marketing.

Nissan Consumer Referral Program Results:

2.3+ Million

Customers referred bi-monthly through marketing from Nissan

Consumer Shop Locators Results:

15,000+

Unique Visitors per Month

FAQ - Additional Questions

How do you get your independent body shop sponsored when necessary?

For some OEMs, independent body shops must have an official dealer sponsorship to become officially Certified-Recognized. Dealer sponsorship is highly encouraged, but is not mandatory for certification with Nissan and Infiniti. Collision Performance Network works with your wholesale parts retailer to coordinate the entire sponsorship process and ensure each step is efficient and painless. You can also go direct and ask your Wholesale Parts Manager to sponsor you. Collision Performance Network will ensure your retailer has all of the online access and information to sponsor your shop.

Is there support if I have questions or need assistance?

Yes. Collision Performance Network will assign you an Account Manager. They can be reached at 949-221-0010.

Can anyone get Certified-Recognized if they pay the fee?

No, only body shops that have the right tools, equipment, training, and facilities to properly repair a vehicle to manufacturer specifications can become Certified-Recognized.

For shops who do not qualify, Collision Performance Network has developed an exclusive Business Improvement Program to assist shops in becoming Certified-Recognized over time.

What it means to be Collision Performance Network Certified

What is the new certified repair provider business model?

The word is out, and drivers know that yesterday's body shop is not tomorrow's leader in safety or quality. Drivers want convenience and ease and are eager to book an online appointment with a manufacturer-certified collision repair provider. Today's driver won't trust their advanced vehicles with a general repair facility. Next-level customer service means the best repair possible. The only way to keep up with the demand from manufacturers, insurers, and drivers is by leveraging the integrity of certification.

Benefits of enrolling with Collision Performance Network

Online & smart phone locators:

Drivers are looking for local Certified Repair Providers through their smartphone and online. As a sought-after Certified Repair Provider and a member of our leading Certified Repair Capable Network, your business will be promoted through innovative and successful social media campaigns, manufacturer locator apps, and on our nonprofit organization's own Auto Body Locator.

Increased quality control:

As an official Certified Repair Provider you will dramatically improve your quality control process. Your properly trained technicians will be able to view the manufacturer's repair procedures from their RepairDOC technician's smart app and document every aspect of the repair - including quality parts use, safety scans and calibrations, use of approved paint systems, and more! This means no more "do-overs" that result in a pure loss of time & money.

ShopOps process management:

ShopOps makes it easy to ensure that your shop meets and maintains all requirements for Certification and other referral programs, including our Certified Network, a Value-added Group, or a DRP Network. You can view requirements or upload documentation and proof of compliance. ShopOps

also gives you access to dataMANAGER, Training Manager, Business Improvement tools, Contact Manager, and RepairDOC Certified Repair documentation.

On demand marketing:

Create a marketing plan for the year or the next five. While word of mouth and a good standing in your community can bring customers in the door, to keep them coming back for more, a detailed marketing strategy is essential. You'll be able to generate a press release or download ready-to-use social media posts, flyers, trifold brochures, and postcard mailers. We know what your customers want and have created an online strategy using digital marketing materials that can help to get you to the first page on search engines and place your business in the news.

OEM certified logos & signage:

Your Certified Collision Repair Business will receive OEM Recognized-Certified Signage as well as a Collision Performance Network Certified Collision Care sign to display in your lobby. The logos & signage increases consumer confidence in your collision repair business and can be used on your websites, estimates, marketing brochures and more.

Collision Operation Repair Essentials (C.O.R.E.) Requirements
