

Getting certified? Now that's the easy part.

Why CPN?

As collision centers strive to meet the growing demand for high-quality vehicle repairs, the OEC Collision Performance Network (CPN) certifies that repair businesses are equipped with necessary tools, training, and standards.

CPN brings leading auto manufacturers together through one joint-effort program to certify and promote top-tier collision repair businesses. Certification through CPN means your collision center is equipped with the latest tools, equipment and training to meet industry repair standards. This not only enhances repair quality, but the overall customer experience.

CPN Certification program benefits:

- Multiple certifications in a single program
- OEM referrals & online shop locators
- Signage, certified logos, and an annual press release
- OEM Certifications provide competitive differentiation in your market
- Rebate & rewards programs
- Access to OEM repair procedures & technical support lines
- Increased brand loyalty & customer satisfaction
- Quality repair reviews and coaching to benchmark and improve shop performance
- Attract and retain qualified technicians

CPN Certifications

- FCA
- Alfa Romeo
- Nissan
- INFINITI
- GT-R
- Hyundai
- Genesis
- Kia
- EVHQ

Certification through CPN drives profitability through consistent processes, promoting efficiency and quality repair outcomes.
